INTENSIVE-LEVEL SURVEY | Jeff R. Rosenberg, Consultant

Consultant will conduct an intensive-level survey for a section of the Starkville African American Resources. The project will meet the requirements of the Mississippi Department of Archives and History (MDAH), and the Secretary of the Interior's Standards for Identification.

No more than 310 buildings or sites, both historic and non-historic located within the area outlined in the RFP will be recorded. For each property inventoried, a unique inventory number will be assigned, a Historic Resource Inventory form (HRI) will be completed, one or more digital photographs will be taken, and the site will be indicated on an appropriate map.

SURVEY MATERIALS

- **Survey Forms:** Will be created using the "Consultant Inventory" Microsoft Access database provided by the MDAH Historic Preservation Division (HDP). This database will generate a template for printing HRI forms, as well as a .TXT file for incorporation into MDAH's online database. When these forms are finalized, a site or building plan will be completed for each resource.
- Research required for properties that derive their significance from historic people and/or events, will be reserved for 5 to 10 properties and conducted with the period materials available during the survey, this includes newspapers and city directories.
- **Photographs:** High resolution digital photographs will be taken of each resource. Each photograph will be clearly labeled to correspond to individual inventory numbers. All digital photos will be provided on CD or USB flash drive.
- **Maps:** Prepare appropriate survey maps in accordance with the requirements of the RFP. It is anticipated that the survey maps will be produced using a tax map as the base. The map will be appropriately scaled and will include a north arrow, depictions of individual buildings, streets, block and parcel lines. Survey numbers will be clearly labeled.
- **Digital Products:** Digital versions of all final survey products will be provided on DVDs or USB flash drive. All survey forms will be provided in .TXT format. Reports, and Maps, will be provided in Adobe Acrobat .PDF format; photographs will be provided in .JPEG or .TIFF format.

MEETINGS

Along with a representative of the MDAH HPD, and the consultant will participate in one public meeting in order to present information about the survey project. The meeting will be scheduled at the beginning of the project to inform the public about the upcoming project and to request information from the public about the history of the community and its resources.

- **Oral histories and informal interviews:** A brief questionnaire will be created and made publicly available with assistance from the City of Starkville. Based on these questionnaires, 5 to 10 submissions will be selected for further informal interviews conducted in person or via telephone, video conference, or email. Existing oral histories, such as those conducted for the 'A Shaky Truce': Starkville Civil Rights Struggles, 1960-1980 project will be utilized when available.

SURVEY REPORT

Once the survey is completed, a report summarizing the project objectives, methodology, scope of research, area covered, and recommendations for additional research or preservation activity as appropriate will be compiled. This report will be prepared per the requirements of the August 2016 revised MDAH Survey Standards.
